LAND USE PLAN RECOMMENDATIONS
<p>The Southall Character Area straddles Carters Creek Pike and Columbia Avenue to the southwest and south of downtown Franklin. To the north, the area is bound by the West Harpeth and Central Franklin Character Areas, to the east by the Carnton and Goose Creek Character Areas and to the south and west by the UGB. There are approximately 4,230 acres in the area, and large residential lots and vacant land account for a majority of that acreage. There are almost 400 acres dedicated to industrial uses, which is more than half of the region's total (although much of this is the rock quarry), and there is also some commercial and office space.</p> <p>The Southall Character Area will remain semi-rural with strong preservation of natural features, particularly of hillsides and hilltops. Development will respect and enhance the character of the area while creating neighborhoods and preserving natural features, such as steep slopes, hilltops and floodplains.</p> <p>Special Area 6 of the Southall Character Area, which is specific to this parcel, notes that heavy industrial uses are appropriate. However, Special Area 6 applies to 5 separate areas within the Southall Character Area. One of these areas contains the properties that were just rezoned from HI to LI along Alpha and Beta Drive.</p>

PROJECT REVIEW

STAFF RECOMMENDATION: Favorable recommendation to the BOMA.

COMMENTS: This request is to rezone the property at 104 Southeast Parkway from HI to LI. As briefly noted above, this area does not contain a cluster of heavy industrial uses and a rezoning to LI would be compatible with the adjacent uses. Therefore, staff recommends that the FMPC favorably recommend the rezoning request on to the BOMA.
