LAND USE PLAN RECOMMENDATIONS
<p>The Central Franklin Character Area will continue to function as the central core having a unique quality that capitalizes on the history of the area and the diversity of the land uses. The area’s small-town identity will be preserved through attention to massing and scale. Neighborhoods and existing residential uses will be protected by providing a consistent appearance and quality within and outside the Historic Preservation Overlay. Compatible infill development is encouraged in the downtown core with attention to context sensitive design, particularly with respect to existing residential uses and structures.</p> <p>In particular, the predominant uses in Special Area 3 will include detached and attached residential development, institutional and civic uses. Accessory dwellings are appropriate in the area. In addition to existing commercial uses, limited neighborhood commercial, civic and institutional uses will occur in nodes located at major intersections of collector or arterial streets. The area should follow standards for traditional areas. New infill and redevelopment in the area is recommended for TND that respects the character of established traditional development. Furthermore, established neighborhoods having a traditional development pattern are important to the character of Central Franklin and the community desires to maintain the established residential character and scale of the area.</p>
