MEMORANDUM

June 12, 2012

TO: Board of Mayor and Aldermen

FROM: Eric Stuckey, City Administrator 
Vernon Gerth, Assistant City Administrator for Community and Economic Development
Catherine Powers, Planning and Sustainability Director

SUBJECT: Ordinance 2012-25, an ordinance to rezone ± 72.91 acres from Agricultural (AG) and Medium Residential (R-2) District to Residential Variety (RX) for the properties located south of Clovercroft Road, southeast of Market Street

Purpose

The purpose of this memorandum is to provide the Board of Mayor and Aldermen (BOMA) with information regarding an ordinance to rezone ± 72.91 acres from Agricultural (AG) and Medium Residential (R-2) District to Residential Variety (RX) for the properties located south of Clovercroft Road, southeast of Market Street.

Background

This ordinance was favorably recommended to the BOMA by the Planning Commission with a 4-2 vote at the May 24, 2012, FMPC Meeting. The project information and comments from the FMPC staff report are included below.

LAND USE PLAN RECOMMENDATIONS
<p>The Seward Hall Character Area lies east of I-65 on the easternmost edge of the City of Franklin and the UGB. It is comprised of approximately 10,614 acres. The north and east boundaries of Seward Hall are the limits of the UGB. The southern boundary is the Harpeth River. The major regional commerce center in the McEwen Character Area lies immediately to the west.</p> <p>The character of this area is a combination of Rural and Suburban. Roughly 46% of the land in this area is either vacant or being used agriculturally. The developed portions of the area are almost exclusively Detached Residential development, comprising 33% of the land area. The remaining 11% of the land is open space, institutional uses or utilities.</p> <p>More specifically, Special Area 2 is largely either built out or committed through approved Concept Plans and typically includes attached and detached residential, parks and open space, with limited institutional and commercial uses. However, there are significantly sized parcels that are currently vacant or agricultural which may be considered for development in the future. The protection of environmental features is important to this area's unique character. Of particular importance in this area are hillsides and hilltops, established clusters of trees, specimen trees and fencerows. These features should be protected.</p> <p>Existing uses are predominantly attached or detached residential. New development shall be consistent with these predominate uses.</p>
