WHEREAS, the City of Franklin is a participant in the National Flood Insurance Program (NFIP); and

WHEREAS, The NFIP encourages states and communities to implement floodplain management programs that go beyond NFIP minimum requirements; and

MEMORANDUM

July 10, 2012

TO: Board of Mayor and Aldermen

FROM: Eric Stuckey, City Administrator
Vernon Gerth, Assistant City Administrator for Community and Economic Development
Catherine Powers, Planning and Sustainability Director
Kelly Dannenfelser, PT-Principal Planner

SUBJECT: Ordinance 2012-35, Zoning Ordinance Text Amendment to amend Chapter 3, Section 3.4.5 of the Franklin Zoning Ordinance

Purpose

The purpose of this memorandum is to provide the Board of Mayor and Aldermen (BOMA) with information regarding a Zoning Ordinance Text Amendment to provide property owners in the FFO Zoning District with limited additional rights to use existing nonresidential buildings while deferring potential for redevelopment until further study.

Background

This Zoning Ordinance Text Amendment was favorably recommended to the BOMA by a unanimous vote (7-0) at the June 28, 2012, FMPC Meeting. There have been numerous public meetings addressing floodplain and permitted uses in the Floodway (FWO) and Floodway Fringe Overlay (FFO) Zoning Districts. A separate Zoning Ordinance Text Amendment is tracking through the public process addressing use of historic structures.

Again, the intent of this Zoning Ordinance Text Amendment is to provide property owners with limited additional rights to use existing nonresidential buildings while deferring potential for redevelopment until further study. Approximately 67 nonresidential parcels have some portion of a building footprint in the FFO. Approximately two thirds of those are located at the confluence of the Harpeth River and Sharps Branch (5th Avenue North area).

This amendment, as written, provides property owners with a choice: Option A maintains all existing legally nonconforming rights for the property (continue the same use and maintain, repair, expand, tear down and reconstruct) and Option B allows use of the existing building for more nonresidential uses in the base zoning district. If Option B is selected, residential use and any use where people would have 24-hour occupancy would be prohibited, as well as expansion of the existing building footprint or demolition/reconstruction.

This amendment does not include the Floodway (FWO) Zoning Overlay District, which impacts approximately six parcels that have structures in the FWO. It is not included because the floodway is where water is flowing during a 100-year flood, which has the highest hazard and risk to public safety, health and welfare.
