COMMENTS: Land Use Plan Recommendations

The Berrys Chapel Character Area comprises approximately 3,534 acres in the north-central portion of the Urban Growth Boundary (UGB). The northern boundary of the area is the UGB, Sims Lane and Lynnwood Way. Mack Hatcher Parkway is the southern boundary, and the Harpeth River is the primary west edge of the area. It is bound to the east by the McEwen Character Area. The primary existing land use in the area is single-family residential, with pockets of civic/institutional and retail uses along Franklin and Hillsboro Roads. In the northeast section of the area there are over 900 multifamily units and a developing mixed use center that provides a variety of housing options.

The Gateway Commons property encompasses two Special Areas – 2 and 4 – within Berrys Chapel Character Area. In Special Area 2, existing uses are predominantly agricultural and detached residential. [A significant portion of the Gateway Commons site in Special Area 2 contains steep slopes and falls within the HHO]. In Special Area 4, existing uses are predominantly high density, mixed use development, consisting of Attached and Detached Residential, Institutional, Neighborhood, and Local Retail and Office uses. This area should follow standards for the Mixed Use Design Concept.

PROCEDURAL REQUIREMENTS:

1. If the plan receives BOMA approval, the applicant shall upload the corrected plan to the online plan review website (<https://franklin.contractorsplanroom.com/secure/>) and submit one (1) complete and folded set and a .pdf file of corrected development plan to the Department of Building and Neighborhood Services (Suite 110, Franklin City Hall). All revisions to the approved plans shall be "clouded." A response letter addressing each condition of approval shall be included with the .pdf upload and the set of corrected plans.
2. The city's project identification number shall be included on all correspondence with any city department relative to this project.
