Amendment 1
Exhibit A

RE: CHANGE ORDER REQUEST, Archaeological Monitoring, Grading Operations at the Eastern Flank Battlefield Park, Franklin, Tennessee.

Mr. Worley,

Following our phone conversation this week, this letter serves as our request for a budget supplement to cover completion costs for the above referenced project, due to unforeseen tasks and schedule extensions.

The original budget of \$38,720 was based on an expected time frame of two months (44 days) for eight hours per day of archaeological monitoring of grading operations. During the initial intensive period of grading, over about six weeks, the work actually took place for up to 11 hours per day, with some Saturday work as well. In addition, the discovery and required excavation of an important archaeological site dating to the early settlement period (ca. 1800 to 1810) directly within the proposed road corridor required time commitments beyond the original scope of the project. This included additional staffing in the field and significant additional time for negotiations with the archaeological staff of the Tennessee Department of Transportation (TDOT) and the State Historic Preservation Office (TN-SHPO), lab work in analyzing the artifacts, and, in coming weeks, completion of the project report.

At this point, our costs have reached about 98 percent of the original budget. **We are requesting a budget supplement of \$8,500.00 to cover expected additional costs** in continued monitoring of the ongoing grading operations and in order to meet the archaeological site reporting requirements set by TDOT and the TN-SHPO.

I appreciate your expedited consideration of this request, and I look forward to continuing to work with you on a successful completion of the project.

Best,

SUBJECT: Consideration of Amendment Number 1 to the Professional Services Agreement with TRC Solutions for Archaeological Services for the Eastern Flank Battlefield Project (COF Contract No. 2013-0040).

Purpose

The purpose of this memorandum is to provide the Board of Mayor and Aldermen (BOMA) with information needed to approve Amendment Number 1 to the Professional Services Agreement with TRC Solutions.

Background

In April 2008 TRC Solutions completed a Phase I Archaeological Survey for the City of Franklin on the Eastern Flank Battlefield site. During their investigation TRC found three potentially eligible archaeological sites that would be eligible for listing in the National Register of Historic Places. Since federal monies are being used on the project the city has to follow the direction of the State Historic Preservation Office which has required that we either complete a phase II archaeological survey or provide monitoring by a qualified professional archaeologist during earth moving activities.

During earth moving activities TRC Solutions found a site of early settlers, probably from the early 1800's that was in the roadway. The sites have been excavated and artifacts that were found have been taken to their Lab for analysis and a final report of the site will be completed and submitted to the State Historical Preservation Office.

The original budget number of \$38,720.00 was an hourly rate for site monitoring during earth moving activities, during the excavation of the site, TRC has three to four staff members working on site, and additional staff working on reporting in the lab. The additional \$8,500.00 is for monitoring the remaining earth moving activity and to complete the lab work and reporting of the historical site.

Financial Impact

The Financial impact is an additional \$8,500.00, this will make the total contract amount \$47,220.00 (\$38,720.00 + \$8,500.00).

Recommendation

Staff recommends approval of Amendment Number 1.
