Re: FRANKLIN, TN – WEST MAIN STREET FINAL PAY REQUEST ALLOWANCE ITEMS

The following tasks were completed as "Allowance Items" part of the West Main Street Water & Sewer Replacement-Phase 2 project:

1. **Fire hydrant relocation at Fair Street & 7th Street** – The relocation of the fire hydrant was included on the plan set but no pay item was on the bid tabs. This work was completed on 9/9/2013. **Allowance Amount: \$1,820.00**
2. **Adjust water valve box in roadway** – Three existing valve boxes that were in the roadway were adjusted to black top grade. These valve boxes had been paid over and were inaccessible prior to the adjustment. This work was completed between July 16 and August 1, 2013 during the installation of the DIP waterline. **Allowance Amount: \$525.00**
3. **Raise Sag In Line – MH 5-3 to MH 5-4** – Post camera inspection of this line after pipe bursting revealed that there was a sag in the line. Review of pre-pipe busting records showed that the sag in the line existed prior to pipe bursting. Stewart Richey open cut approximately 20 linear feet on the first mobilization and an additional 30 linear feet on the second mobilization of line, adjusted the sags, backfilled the full depth with crushed stone, replaced a section of curb and asphalt patched the excavation trench. This work was completed on 10/11/13 and additional repair on 11/18/13. **Allowance Amount: \$6,992.50 Full-Depth Stone \$1,800**

If any additional information is needed please let me know.

Sincerely,
Jeremy Rodgers, EIT
Project Manager
