### **Project Description:**

The applicant is requesting an Envision Franklin text amendment for the Liberty Pike/Eddy Lane Special Consideration in the Industrial Flex Design Concept. Text change expands the criteria allowed to be considered for properties seeking to develop a multifamily residential use.

### The current text is as follows:

The area east of Franklin Road along Liberty Pike and Eddy Lane has an established industrial character. Architectural design should retain or provide elements of the established industrial character. Multifamily residential uses may be appropriate for properties adjacent to existing residential uses. This provision allows the area to gradually transition to multifamily residential uses, starting from the edges. Connectivity should be improved by providing sidewalks, trails, and a connection to Fort Granger.

### The proposed text is as follows:

The area east of Franklin Road along Liberty Pike and Eddy Lane has an established Industrial character that is partially expected to transition to multifamily residential uses as redevelopment occurs. Architectural design should retain or provide elements of the established industrial character. Multifamily residential uses may be appropriate for properties in this area. Multifamily residential uses may require additional buffering from light industrial uses. Connectivity should be improved by providing sidewalks, trails, and a connection to Fort Granger.

\*Please note that there may be some changes to the wording of the new text. Edits are still being made by the City of Franklin.
