HISTORIC  
FRANKLIN  
TENNESSEE

Dear Adams Street resident(s),

RE: Construction Project Along Adams Street

The City of Franklin Water Management Department (WMD) has been working with a consulting firm to design upgrades to the water and sanitary sewer along Adams Street. The sewer and water both need to be replaced from Carolyn Avenue to Lewisburg Avenue as part of the Water Management Department's annual Capital Improvement Plan for the City's infrastructure.

Plans were completed earlier this year and the project was advertised in the spring, and awarded to SBW Constructors, Incorporated at the May 2023 Board meetings. The Notice to Proceed will be given for August 14, 2023, and construction is planned for 11 months.

The WMD will be conducting a Neighborhood Meeting on **August 3, 2023, at 6:30pm** via Zoom meeting to present more details on the project and hear any questions. This letter is being sent to all property owners within the immediate vicinity of the project, in addition to doorhangers for all surrounding residents with information to join the meeting.

**ZOOM MEETING:**

<https://franklintn.gov.zoom.us/j/83851829612?pwd=dnLSL24yWEIQREICVTJGNHErem8xQT09>

Meeting ID: 838 5182 9612

Passcode: #3HSq2

This link is also posted on our webpage, [www.franklintn.gov/AdamsSt](http://www.franklintn.gov/AdamsSt) that is clickable to join.

At the public meeting, staff will provide an overview of the project, the proposed construction schedule, impacts to sanitation service, traffic control and road closures. Following the short presentation, City of Franklin staff will be available to answer any questions from the public. We will record the meeting and post it to this website if you are not able to make the meeting.

Please let me know if you have any questions or comments. If you would like to come by Public Works (124 Lumber Drive) to view the plans and discuss more detail, please let me know and we can schedule an appointment. Thank you for our patience and cooperation with the City of Franklin during the construction of this project and don't hesitate to reach out prior or during construction with questions.

Sincerely,

A handwritten signature in blue ink that reads "Patricia McNeese".

Patricia McNeese, P.E.  
Utilities Engineer II
