## UTILITY RELOCATION CONTRACT

---

THIS CONTRACT made and entered into by and between the **State of Tennessee** acting through its Department of Transportation, hereinafter called "TDOT", and **City of Franklin Water Management (Water)**, hereinafter called the "Utility".

### WITNESSETH:

WHEREAS, TDOT plans to construct PIN Number 101454.01, SR- 397 (Mack Hatcher Parkway) From Sr-96 West of Franklin to SR-109 (US-431) North of Franklin, located in **Williamson County**, Tennessee (hereinafter called the "Project"), and for said Project to be constructed it will be necessary for the Utility to relocate certain of its facilities, 100 percent of which are located on public highway right-of-way and 0 percent of which are located on private utility right-of-way; and

WHEREAS, TDOT is liable for the relocation of utility facilities located on private utility right-of-way and is authorized, in accordance with TCA 54-5-804, to reimburse the Utility for the relocation of utility facilities located on public highway right-of-way but is not liable for any utility betterment costs; and

WHEREAS, in accordance with TDOT policy, the reimbursement of actual allowable costs for relocating utility facilities on public highway right-of-way for municipally owned utilities, Utility Districts, or Utility Cooperatives, as defined in TDOT's Policy #340-07, shall be capped at a maximum reimbursement of \$1,750,000, and for all other utilities the reimbursement shall be limited to 75% of actual allowable costs up to a maximum reimbursement cap of \$1,750,000.

WHEREAS, the Utility has furnished TDOT with an estimate, plans, and specifications showing the cost and manner of relocating these facilities, which estimate is in the amount of \$100,783.81, including the amount of \$9,423.81 for the cost of engineering; including the amount of \$0.00 for the cost of inspection provided by the Utility; including the amount of \$0.00 for the cost of betterment to the Utility's facilities (hereinafter called the "Betterment Cost"), and including the amount of \$0.00 for the cost over the maximum TDOT reimbursement amount, and of which 0 percent represents the pro-rata share to which the Utility is entitled to reimbursement for relocation of utility facilities located on private utility right-of-way, and 100 percent represents the pro-rata share for relocation of utility facilities located on public highway right-of-way, reimbursement being for the cost of construction, engineering and inspection, excluding betterment and the cost over the maximum TDOT reimbursement amount; and

WHEREAS, the parties want to enter into an agreement to provide for the relocation of the Utility's facilities in conjunction with this highway construction project, and the Utility has requested TDOT to undertake the hereinafter described utility relocation work in its highway construction contract as provided in TCA 54-5-804; and

WHEREAS, it is in the mutual interest of the parties that this utility relocation work be performed together with the proposed highway construction;

NOW, THEREFORE, in consideration of these premises and the mutual promises contained herein, it is agreed by and between the parties as follows:

- 1 (a) TDOT will show the proposed relocation of the Utility's facilities on TDOT's highway construction plans as project cost items and will receive bids for same by its highway contractor as a part of the contract for construction of the above mentioned Project. TDOT will be responsible for having its contractor perform the aforesaid utility relocation work in accordance with TDOT's construction contract, including the project plans, standard specifications, special provisions, and the utility relocation plans and specifications heretofore agreed upon by and between the parties hereto, all of which are incorporated herein by reference.
- (b) The Utility agrees to reimburse TDOT for the Betterment Cost and the cost over the maximum TDOT reimbursement amount. Reimbursement shall be based on the agreed percentage of the actual cost of the Betterment Cost items as shown on the project plans incorporated herein by reference. It is further agreed that the Utility will make payment to TDOT in the amount of the estimated cost of the Betterment Cost items and the estimated cost over the maximum TDOT reimbursement amount prior to advertisement for bids. The Utility may provide these funds by one of the following means:
  - A. A check made payable to the order of and sent to TDOT; or
  - B. Documentation of a deposit made only by wire or by immediate credit transfer with the Treasurer of the State.In the event said deposit exceeds the aggregate amount of the Betterment Cost charges, the difference will be refunded to the Utility. In the event said Betterment Cost charges exceed the deposit, the Utility agrees to reimburse TDOT for such additional amount.
- (c) The Utility agrees that TDOT may advertise for and receive bids for the construction of the Project, including the proposed relocation of the Utility's facilities, and award and enter into contract with the lowest responsible bidder.
- (d) The Utility agrees that any memoranda or other information concerning the estimated cost of the proposed relocation of the Utility's facilities will not directly or indirectly be released or disclosed to potential bidders except to the extent that the utility may otherwise be required to do so by law.
- (e) Neither the Utility nor any affiliate or subsidiary thereof shall participate directly or indirectly as a bidder for any part of the Utility's relocation work to be performed under a contract to be awarded by TDOT. The Utility further agrees that no employee, officer, or agent of the Utility shall participate in any subcontract for

the performance of any part of the Utility's relocation work if a real or apparent conflict of interest would be involved. Such a conflict of interest would arise when the employee, officer, or agent, or any member of his or her immediate family, or his or her partner, or an organization which employs or is about to employ any of the above, has a substantial financial interest, such as five-percent (5%) or greater ownership interest, or other interest in the firm selected for a subcontract to perform the Utility's relocation work for this Project.

- (f) It is also understood and agreed that TDOT, in its sole discretion, may reject any and all bids submitted for the construction of said Project without any liability whatsoever to the Utility.
2. (a) It is further agreed that in letting the contract with respect to the proposed relocation of the Utility's facilities, TDOT is acting solely in accommodation of the Utility and shall have no liability to the Utility for any damages or claims arising out of acts or omissions on the part of TDOT's contractor. In addition, the Utility agrees to hold harmless and indemnify TDOT from all claims arising out of the inclusion of the Utility's items of work in TDOT's highway construction contract. Under this contract, "TDOT" shall include any and all officers and employees of the State of Tennessee acting within the scope of their employment with the State of Tennessee.
    - (b) The utility relocation plans and specifications heretofore agreed upon by and between the parties hereto, all of which are incorporated herein by reference are provided by the utility, signed and sealed in accordance with State regulations by a licensed engineer employed by the utility, and the utility is solely responsible for said relocation plans and specifications. The utility shall be responsible for all direct or indirect costs resulting from errors and omissions of said relocation plans and specifications included in the TDOT construction contract. The utility shall be responsible to provide to TDOT any and all necessary plans, electronic files, documentation, or anything else that is deemed necessary by TDOT to include the utility work in the in the TDOT construction contract.
  3. (a) The Utility shall acquire all utility rights-of-way outside of the proposed public highway right-of-way as may be needed to relocate its utility facilities, including any betterment, and the Utility shall provide TDOT and its contractor with the rights to use these utility rights-of-way for construction purposes. The Utility further agrees to acquire these rights-of-way at no cost to TDOT except insofar as TDOT may be liable to reimburse the Utility for the replacement of previously owned private utility rights-of-way as may be provided in a separate contract between the parties.
    - (b) The Utility agrees to transfer to TDOT that portion of the previously owned private utility rights-of-way that is within the Project proposed right-of-way as needed for highway purposes.
  4. The Utility shall have the right and responsibility to inspect and approve, prior to TDOT's release of its highway contractor's bond, all items of utility relocation work, including betterment, to be performed under the proposed highway construction contract to ensure that the relocation is completed in accordance with this Contract

and all applicable specifications and safety codes. The Utility shall provide progressive inspection reports to TDOT in accordance with the current TDOT Construction Circular Letters section 105.07 "Utilities Diaries and Inspection Procedures" incorporated herein by reference. TDOT agrees that it will reimburse the Utility the pro-rata share for the inspection of utility facilities on private utility right-of-way when the utility relocation is completed in accordance with the approved relocation plans, incorporated herein by reference. The inspection of utility facilities on public highway right-of-way shall be performed at no cost to TDOT.

5. The Utility agrees that:

- (a) The Utility will perform the utility engineering work provided for in this Contract by its own forces and/or consultant engineering services approved by TDOT.
- (b) It will develop the utility engineering costs in accordance with the current provisions of 23 CFR 645.117.

6. Subject to the provisions of this paragraph and as otherwise provided in this Contract, TDOT agrees to reimburse the Utility for the Utility's reimbursable engineering and inspection costs associated with the relocation of the Utility's facilities, as follows:

- (a) The Utility shall perform the engineering and inspection work in accordance with the estimate of cost and plans as approved by TDOT and incorporated herein by reference. The estimate of cost and schedule of work are attached hereto as Exhibit "A".
- (b) Any change in the approved estimate of cost or plans shall require the prior written approval of TDOT. TDOT agrees to review and, if acceptable, approve such requests for change in a timely manner, and TDOT agrees to cooperate with the Utility to resolve, if possible, any objections TDOT may have to such requested changes.
- (c) TDOT shall reimburse the Utility for such direct and indirect costs as are allowable under the current provisions of 23 CFR 645A. Any claim for costs that would be ineligible for Federal reimbursement under 23 CFR 645A on a federal-aid project shall be ineligible for reimbursement by TDOT on this Project, whether it is or is not a federal-aid project.
- (d) The Utility shall develop and record engineering and inspection costs in a manner consistent with the current provisions of 23 CFR 645.117 as of the effective date of this Contract and as approved by TDOT.

- (e) The Utility shall submit all requests for payment by invoice, in form and substance acceptable to TDOT, with all necessary supporting documentation, prior to any reimbursement of allowable costs. Such invoices shall indicate, at a minimum, the amount charged by allowable cost line-item for the period invoiced, the amount charged by line-item to date, the total amount charged for the period invoiced, and the total amount charged under the Contract to date.
  - (f) The Utility may submit invoices for interim payments during the progress of the work; provided, however, that such interim payments may be approved only up to a maximum of eighty percent (80%) of the approved estimate of cost attached hereto as Exhibit "A" to this Contract, and any remaining reimbursable costs must be submitted on the final bill. Such invoices for interim payments shall be submitted no more often than monthly.
  - (g) TDOT shall, unless it has good faith and reasonable objections to the Utility's invoice for interim payment, use its best efforts to issue payment based on the Utility's invoice within forty-five (45) days after receipt. If, however, TDOT has good faith and reasonable objections to the Utility's invoice(s) or any part thereof, TDOT shall specifically identify those objections in writing to the Utility so as to allow the parties to address them in a prompt manner. If the invoice is otherwise acceptable, TDOT shall only withhold payment(s) as to those cost items it has specified in its written notice of objections to the Utility. All other reimbursable cost items set out in the Utility's invoice shall be paid by TDOT.
  - (h) Subject to the Utility's right to bill on an interim basis as described above, the Utility shall by invoice provide one final and complete billing of all costs incurred within one year following the completion of the Utility relocation work in its entirety. Otherwise, any previous payments to the Utility shall be considered final, and the Utility shall be deemed to have waived any claim for additional payments, except as TDOT and Utility may have agreed otherwise in writing before the end of that year.
  - (i) The Utility's invoice(s) shall be subject to reduction for amounts included in any invoice or payment theretofore made which are determined by TDOT, on the basis of audits or monitoring conducted in accordance with the terms of this Contract, not to constitute allowable costs. The payment of an invoice shall not prejudice TDOT's right to object to or question any invoice or matter in relation thereto. Such payment by TDOT shall neither be construed as acceptance of the work nor as final approval of any of the costs invoiced therein.
7. The Utility agrees that its cost records will be subject to inspection at any reasonable time by representatives of TDOT before or after final payment for reimbursable work. In the event any costs are determined not to be allowable under provisions of this Contract, the Utility agrees to repay TDOT such amount of ineligible costs included within payments made by TDOT.

8. The Utility shall keep and maintain accurate records by which all invoices can be verified. The books, records, and documents of the Utility, insofar as they relate to work performed or money received under this Contract, shall be maintained for a period of three (3) full years after final payment has been received by the Utility and shall be subject to audit at any reasonable time and upon reasonable notice by TDOT, the Comptroller of the Treasury, or their duly appointed representatives during this three year period. The financial statements shall be prepared in accordance with generally accepted accounting principles.
9. This Contract is subject to the appropriation and availability of TDOT funds. In the event that the funds are not appropriated or are otherwise unavailable, TDOT reserves the right to terminate this Contract upon written notice to the Utility. Said termination shall not be deemed a breach of Contract by TDOT. Upon receipt of the written notice, the Utility shall cease all work associated with the Contract, except as may be reasonably necessary to return the Utility's facilities to safe operation. Should such an event occur, the Utility shall be entitled to compensation for all costs of relocation reimbursable under 23 CFR 645A (in accordance with paragraph 6(c) of this Contract) for work completed as of the termination date or in accordance with this provision. Upon such termination, the Utility shall have no right to recover from TDOT any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.
10. The Utility agrees, to the extent provided by law, that it will be solely responsible for any and all claims, liabilities, losses, and causes of action which may arise, accrue, or result to any person, firm, corporation, or other entity which may be injured or damaged as a result of acts, omissions, or negligence on the part of the Utility or its employees in the performance of the Utility's engineering and inspection work relating to this Contract. The Utility agrees that it will not hold TDOT responsible for any claims arising out of the inclusion of the Utility's items of work in TDOT's highway construction contract. Under this contract, "TDOT" shall include any and all officers and employees of the State of Tennessee acting within the scope of their employment with the State of Tennessee.

In the event that TDOT is sued for damages arising from acts, omissions, or negligence by the Utility or its employees, the Utility shall cooperate in TDOT's defense. TDOT shall give the Utility written notice of any such claim or suit, and the Utility shall have full right and obligation to conduct the Utility's own defense thereof. Nothing contained herein shall be deemed to accord to the Utility, through its attorney(s), the right to represent TDOT in any legal matter, such rights being governed by Tennessee Code Annotated, Section 8-6-106.

11. TDOT shall have no liability except as specifically provided in this Contract.
12. This Contract may be modified only by a written amendment executed by the parties hereto.
13. Failure by any party to this Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Contract shall not be construed as a waiver or relinquishment of any such term,

covenant, condition, or provision. No term, covenant, condition or provision of this Contract shall be held to be waived, modified, or deleted except by written amendment signed by the parties hereto.

14. The Utility hereby agrees that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract or in the employment practices of the Utility on the grounds of disability, age, race, color, religion, sex, national origin, or any classification protected by the Constitution or statutes of the United States or the State of Tennessee. The Utility shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.
15. The Utility shall comply with all applicable federal and state laws and regulations in the performance of its duties under this Contract. The Utility agrees that failure of the Utility to comply with this provision may subject the Utility to the repayment of all State funds expended under this Contract.
16. This Contract shall be binding upon and shall inure to the benefit of the parties hereto, their respective heirs, legal representatives, successors and assigns. Time is of the essence of this Contract.
17. This Contract shall be governed by and construed in accordance with the laws of the State of Tennessee. The Utility acknowledges and agrees that any rights or claims against the State of Tennessee or its employees hereunder, and any remedies arising therefrom, shall be subject to and limited to those rights and remedies, if any, available under Tennessee Code Annotated, Sections 9-8-101 through 9-8-407.
18. If any terms, covenants, conditions or provisions of this Contract are held to be invalid or unenforceable as a matter of law, the other terms, covenants, conditions and provisions hereof shall not be affected thereby and shall remain in full force and effect. To this end, the terms and conditions of this Contract are declared severable.
19. TDOT and the Utility agree that any notice provided for in this Contract or concerning this Contract shall be in writing and shall be made by personal delivery, by certified mail (return receipt requested), by nationally recognized overnight delivery service (such as FedEx or UPS), or by facsimile transmission (provided that notice shall also be given in one of the other methods prescribed herein) addressed to the respective party at the appropriate facsimile number or address as set forth below or to such other party, facsimile number, or address as may be hereafter specified by written notice.

## CIRCULAR LETTER

**Section: 105.07 Cooperation with Utilities**  
**Number: 105.07-04**  
**Subject: Utility Diaries and Inspection Procedures**  
**Date: December 15, 2007**

On all projects requiring utility relocations, Form DT-0667 "Project Utility Diary" is to be used to document said relocations whether the work is reimbursable or not. When a utility is relocating at its own expense or under a lumps sum reimbursement contract, the "Description of Work Performed" section will be the only notation required. The notation shall indicate if the relocation is a non reimbursable or lump sum reimbursable contract. Form DT-0667 fulfills the requirements for documentation detailed in Section 109.05 of the Department of Transportation Construction Manual and Section 18-7 of the Standard Utility Procedures Manual.

- 1 Form DT-0667 is to be completed in the field by the utility inspector.
- 2 The original or white sheet is to be transmitted to the TDOT Project Supervisor's office and bound.
- 3 The first copy or yellow sheet is to be transmitted to the utility company on reimbursable relocations.
- 4 The second copy or pink sheet is to be retained in the utility diary.

If the utility relocation is included in the state contract, the utility will be responsible for inspecting all phases of the relocation, per TCA 54-5-804, 2003 Public Chapter 86. The TDOT inspector shall document the utility work activities performed in the daily project diaries. The inspector provided by the utility company will:

- 1 Complete Form DT-0667 as described above and submit it each estimate period, as directed by the TDOT Project Supervisor. Along with the item descriptions, the inspector will include the quantities and stations of installed items.
- 2 Complete "Installed Item Certification" portion of Form DT-1716 and submit it each estimate period, as directed by the TDOT Project Supervisor. This form will be signed to certify that the items installed during that estimate period met all applicable specifications.
- 3 Complete and attach Form DT-1716A to DT-1716 and submit it each estimate period, as directed by the TDOT Project Supervisor. This form will be used to summarize, by project number, the utility items installed during that estimate period. The TDOT inspector shall sign Form DT-1716A after ensuring it is consistent with the utility diaries and daily project diaries. The completed Form DT-1716A shall be referenced in the progress pay quantity documentation.
- 4 Complete "Final Acceptance of Work" portion of Form DT-1716 and submit it to the TDOT Project Supervisor's office when the utility relocation work is complete.

## MEMORANDUM

---

April 15, 2011

**TO:** Board of Mayor and Aldermen

**FROM:** David Parker, City Engineer/CIP Executive  
Eric Stuckey, City Administrator *E. Stuckey*

**SUBJECT:** **Tennessee Department of Transportation (TDOT)  
Water & Sanitary Sewer Relocation Contracts  
Mack Hatcher Parkway Extension Northwest Quadrant**

### Purpose

The purpose of this memorandum is to provide the Board of Mayor and Aldermen (BOMA) with information to consider two proposed TDOT contracts for the relocations of the water and sanitary sewer relocations required for the Mack Hatcher Parkway Extension Northwest Quadrant Project.

### Background

The Mack Hatcher Parkway Extension has been the BOMA's top priority for a number of years. In order to do this project, the City will have to relocate some of its water and sanitary sewer infrastructure. At least a portion of the relocations are eligible for reimbursement by TDOT. TDOT has provided the City with their standard contracts for the required relocations; TDOT Contract No 7698 for the water relocations (COF Contract No 2011-0051), and TDOT Contract No 7697 for the sanitary sewer relocations (COF Contract No 2011-0052).

### Financial Impact

Water – TDOT Contract No 7698 estimates the allowable reimbursement from TDOT to be \$100,783.81. The cost to the City will not be known until the final design of the relocations are known and accomplished. The City will probably want to upsize the water mains and upsizing is not eligible for reimbursement.

Sanitary Sewer – TDOT Contract No 7697 estimates the allowable reimbursement from TDOT to be \$302,912.17. The cost to the City will not be known until the final design of the relocations are known and accomplished. The City will probably want to upsize the water mains and upsizing is not eligible for reimbursement.

### Recommendation

Approval of TDOT Contract No 7698 for the Water relocations and TDOT Contract No 7697 for the Sanitary Sewer relocations is recommended. Both of these contracts have been reviewed and approved as to form by the City Attorney.
